

Love and Logic Early Made Fun! - Creating Happy Families and Responsible Kids

The primary mission of the Love and Logic Institute is to make the world a better place by helping parents raise great kids... kids who will grow up to be great citizens. The practical and proven tools will help you raise responsible, productive, respectful, and happy kids. Most importantly, parenting will be fun and rewarding, and you will be able to discipline your kids effectively without losing their love and respect.

The techniques are simple and easy to learn, and teach responsibility and character. They will positively change the lives of your family and lower stress levels of you and your kids. Now is the time to lay the foundation – when your children are young and learning about behavior, family roles, and boundaries.

The program, facilitated by Julie Martinelli, includes a workbook and employs videos from parenting experts Jim and Dr. Charles Fay, who use the art of storytelling to demonstrate just how easy and effective these tools are.

- 1: Love and Logic basics and handling misbehavior without breaking a sweat
- 2: Teaching kids to listen... the first time
- 3: Avoiding power struggles
- 4: Setting limits
- 5: What to do when your kids leave you speechless

Some general topics the sessions will cover:

- The importance of relationship and nurturing: needs vs. wants
- Empathy: the most important skill
- Ending misbehavior in public
- How to overcome the “repeated warnings” habit
- The importance of “affordable” mistakes
- Ending bedtime and morning battles
- Gaining control by sharing it
- The power of enforceable statements
- How to employ a “strategic training session”
- The effectiveness of delayed consequences
